

## MUTOH Wins 3 Pinnacle Product Awards for 2025

MUTOH INDUSTRIES LTD.

MUTOH INDUSTRIES LTD. (Headquarters: Setagaya-ku, Tokyo, President: Yasuhiko Isobe; hereinafter referred to as “MUTOH”), is pleased to announce having received three 2025 Pinnacle Product Awards sponsored by the PRINTING United Alliance. This marks the 14th consecutive year that our company's products have received this honor.

The Pinnacle Product Awards recognize products that improve or advance the printing industry with exceptional contributions to quality, capability, and productivity. Entries are evaluated by a highly qualified panel of judges from across the printing industry in more than 58 categories including analog, digital, output, and non-output.

MUTOH has proudly won three awards in the following output categories this year:

- **ValueJet 2638X 104” Eco-Solvent Printer**

Roll-to-Roll Solvent/Latex (over 80 in.) category

Equipped with MUTOH genuine eco-solvent ink with excellent color development, weather resistance, and maintainability, this printer provides high-resolution and vivid printing at outstanding speeds. This model claimed this award for the second consecutive year.

- **XpertJet 661UF 19” x 23” UV-LED Flatbed Printer**

Tabletop Flatbed (Industrial/Small Item Decoration) category

MUTOH's unique technology, which optimally controls the UV-LED lamp irradiation, allows you to adjust varnish texture, making it possible to express fine textures and even print Braille. With a single table scan, you can print gloss, semi-gloss, and matte varnishes simultaneously with color and white, which helps to reduce printing time and improve productivity.

- **ValueJet 1638UH Mark II 64” UV-LED Hybrid Printer**

UV/Latex Hybrid (under \$100K) category

This model supports 6 colors (CMYK/White/Varnish) of soft and hard type genuine UV-LED inks, and allows direct printing on a variety of materials, from sheet-type media to roll-type media. Varnish ink reduces the surface unevenness characteristic of UV ink, achieving a glossy and tactile finish.

MUTOH has always taken great pride in the design and manufacturing of its made-in-Japan-quality products and top-notch service. MUTOH is committed to constant innovation and leading advancements in technology and will continue to provide products that meet the highest quality standards in the industry.
